Safe Just Became Safer

Management Systems

William Hackett is proud to be a triple badged quality assured company. All of our business activities are conducted within quality, environmental, and occupational health and safety management systems that are certified in accordance with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018.

Holding DNV accreditation within these standards of system control, all of our products, including our Hack10 chain sling system range, undergo rigorous quality checks as part of our manufacturing process.

LEEA

William Hackett is a full member of the lifting industry trade body, Lifting Equipment Engineers Association (LEEA). Our affiliation with LEEA is strong, with our Group Business Development Director, Ben Burgess, being a member of LEEA's board. Additionally, one third of our team hold their fully qualified LEEA registered technician status, making us well equipped to improve the safety of your lifting operations.

William Hackett Assure Portal

Our Assure portal offers market leading product traceability and certification retrieval. This fully integrated stock system allows William Hackett distributors to place orders, review product purchase history, obtain current and historic test certifications, and obtain product safe use instructions, providing enhanced quality assurance to our stakeholders.

Exceeding International Standards

All of our Hack10 lifting components fully comply with the relevant requirements of the following International Standards: EN1677-4, ASTM A952/A and DIN PAS 1061. This means our Hack10 lifting components can be used in chain slings certified to EN818-4, for use in temperature ranges of -40°C up to 200°C without a reduction in Working Load Limit.

Product Support

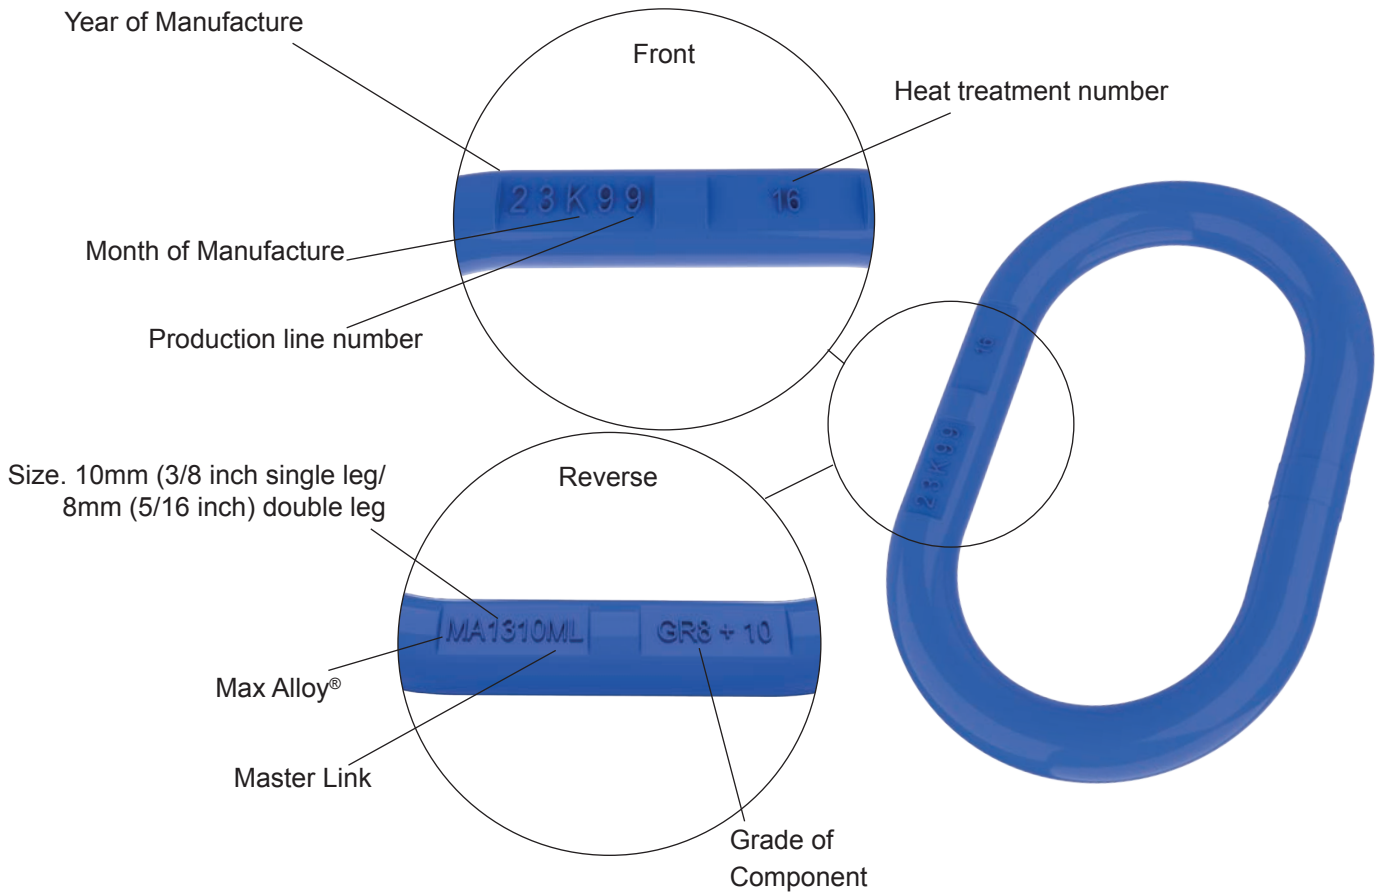

William Hackett is fully committed to providing its customers with technical and service support through the product lifecycle, including the availability of spares and replacement components.

All statements, technical information, advice and recommendations contained within this brochure are believed to be reliable, although no guarantee is given as to their accuracy and/or completeness. The user of our products must determine the suitability of the products for their own particular purpose, either alone or in combination with other products and shall assume all risk and liability in connection with those decisions. Whilst every effort has been made to ensure accuracy in relation to the content of tables, the information contained does not form part of any contract. We reserve the right to change product information and data at any time without notice.

Quality Assurance and Traceability

Welded Components

Batch markings for Master Links & Sub Assemblies

Forged Components

Quality Assurance and Traceability

Grade 10 Short Link Chain

MA10 and batch traceability marks, the mark of Max-Alloy® quality grade 10 chain, the grade that should always be used for sling or lifting appliances.

Chain Sling Assembly

- Full assembly service provided, all slings are assembled by trained and qualified staff.
- Available in the following sizes:
6mm – 32mm (Metric)
1/4 inch – 1-1/4 inch (Imperial)

William Hackett Lifting Products Limited		Full Member	DUAL PURPOSE DOCUMENT Test Certificate A Grade 100 Chain Slings are manufactured and fully comply with the requirements of ASTM906/A906M 2002 Grade 80 and Grade 100 Alloy Steel Chain Slings for Overhead Lifting

Grade 10 Working Load Limits

Single Leg Chain Slings

Basket Hitch (back hooked into top link)

The WLL will be the WLL for single leg slings.

Reeveable Collar Sling

The WLL will be 1.4 x the WLL for single leg slings.

Two Leg Chain Slings

Choke Hitch

The WLL will be 0.8 x the WLL for a two leg sling.

Double Basket

The WLL will be the WLL for a two leg sling.

Three & Four Leg Chain Slings

Choke Hitch

The WLL will be 0.8 x the WLL for 3 & 4 leg slings.

Straight Lift

The WLL will be the WLL for 3 & 4 leg slings.

Grade 10 Lifting Chain

Material: Grade 10 Alloy Steel

Paint Finish: Blue

Fulfills mechanical requirements in:

ASTM A973/A973M-07 (2012)

EN818+2:2008 (WLL +25%)
